

NY Green Bank: Capital Solutions for Clean Energy

Buffalo, NY

NY Green Bank is a \$1.0 billion State-sponsored investment fund, managed by a team of solutions-oriented financing professionals. As a market-focused and market-responsive entity, NY Green Bank specializes in implementing effective approaches for financing projects that support New York State's clean energy goals.

NY Green Bank provides capital to project developers, building owners, property managers, energy service companies, and other sustainable infrastructure market participants for economically and technically viable projects, especially where funding from traditional financiers may not be available. Financing these projects accelerates the deployment of clean energy across New York State and drives the evolution of the grid and energy infrastructure to be more flexible, resilient, and cost-effective.

MOBILIZING CAPITAL FOR MORE SUSTAINABLE INFRASTRUCTURE

As the largest Green Bank in the nation, NY Green Bank supports key initiatives that are expected to result in substantial continued and new market activity across the State.

Such initiatives include:

- Solar-Plus-Storage
- Stand-Alone Storage
- Residential, Commercial, and Industrial Energy Efficiency (supported by new pay-for-performance incentives)
- Community Distributed Generation
- Electric Vehicles, including Charging Infrastructure
- Controlled Environment Agriculture
- Offshore Wind
- Anaerobic Digestion
