

**Financing Arrangements for Renewable & Energy Efficiency Projects: Office,  
Commercial & Industrial, and Multi-Family Real Estate Properties  
Request for Proposals | Ongoing Solicitation  
RFP No. 8, Version 1.1 – May 2017**

## **Summary of Revisions**

On March 31, 2017, NY Green Bank (“**NYGB**”) publicly issued its Request for Proposals (“**RFP**”) No. 8 Version 1.0. On May 16, 2017, Version 1.1 of RFP No. 8 was released to conform with NYGB’s new online process for submitting proposals.

Capitalized terms used but not separately defined in this Summary of Revisions have the meanings respectively given to them in RFP No. 8.

Changes reflected in Version 1.1 of RFP No. 8 (versus Version 1.0) include:

1. Modifying certain structural aspects to reflect NYGB’s new online proposal submission process. This involved streamlining and standardizing references related to the collection of key data, which now occurs through direct online inputs by proposers rather than the use of separate attachments and forms. These revisions are procedural only and do not affect the substance of RFP No. 8 as originally issued.
