

Transaction Profiles

Summary of Revisions

As required by the “NY Green Bank – Metrics, Reporting & Evaluation Plan” Version 3.0, dated June 20, 2016 (the “**Metrics Plan**”), following the closing of each investment, NY Green Bank (“**NYGB**”) makes publicly available a description of that investment in a document known as a “Transaction Profile”. Transaction Profiles are included in Quarterly Reports relating to the quarter in which the corresponding investments closed, as well as being posted on NYGB’s website at www.greenbank.ny.gov/Investments/Transaction-Profiles.

From time to time it is necessary to update Transaction Profiles and NYGB has recently undertaken a review exercise in connection with the descriptions of executed transactions. As a result, Transaction Profiles have been updated to ensure that they continue to reflect accurate information, consistently applied.

Changes to previously posted Transaction Profiles are summarized in the following table, for ease of reference.
